

Prof. EKREM SELÇUK

Personal Information

Email: eselcuk@metu.edu.tr

Web: <https://avesis.metu.edu.tr/eselcuk>

Advising Theses

- SELÇUK E., Investigation of shaw process mold making technique., Postgraduate, F.Güner(Student), 2002
- SELÇUK E., Riserling of short freezing range aluminium alloys, Postgraduate, H.Meço(Student), 2000
- SELÇUK E., Riserling design for long freezing range copper base alloys, Postgraduate, E.Kadakoğlu(Student), 2000
- SELÇUK E., An Investigation about feeding of nodular cast iron., Postgraduate, H.Tokaç(Student), 1998
- SELÇUK E., The production of glass particle reinforced aluminium composites by Vortex method, Postgraduate, M.Kayılı(Student), 1996
- SELÇUK E., Investigation of mottling in radiography of directionally solidified ni-based alloy gas turbine blades, Doctorate, H.Aygün(Student), 1996
- SELÇUK E., Compacted/vermicular graphite iron production techniques and the section sensitivity of compacted/vermicular graphite iron., Postgraduate, G.Yaşar(Student), 1996
- SELÇUK E., Thermit welding mould making, Postgraduate, H.Hoşgör(Student), 1995
- SELÇUK E., Measurement of surface tension and investigation of interfacial properties of liquid Cu, Al, and Al-Si, bronze alloys on various refractory oxides, Doctorate, H.Kalebozan(Student), 1994
- SELÇUK E., Improvement in the impact toughness of aluminium fiber glass composites, Postgraduate, M.Duru(Student), 1993
- SELÇUK E., A new bearing alloy zinc aluminium., Postgraduate, A.Hakan(Student), 1993
- SELÇUK E., Production of ductile pipe, Postgraduate, F.Dulkan(Student), 1991
- SELÇUK E., Effects of electromagnetic stirring on grain size of commercially pure aluminum, Postgraduate, S.Şahin(Student), 1990
- SELÇUK E., Investigation of production and service parameters of proximal femoral prosthesis, Postgraduate, H.Aygün(Student), 1988
